Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 35-39,46,48-53 and 55 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The original specification does not provide support for the support device being applied to or adhered to the "skin" of the horse or animal. The device is disclosed as being attached or adhered to the nose of the animal. However, since these animals have hair covering their noses, it would seem that the device would not actually contact the skin, but would rather contact or adhere to the hairs.

Allowable Subject Matter

Claims 22-34,40-45 and 54 are allowed.

Response to Arguments

Applicant's arguments with respect to claims 35-39,46,48-53 and 55 have been considered but are moot in view of the new ground(s) of rejection.
